Cautionary Note Regarding Forward-Looking Statements

Certain statements in this presentation may constitute “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. Such statements are statements other than historical fact and relate to our intent, belief or current expectations, primarily with respect to our future operating, financial and strategic performance. Any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties. Actual results may differ from those contained in or implied by the forward-looking statements as a result of various factors including, but not limited to, risks and uncertainties relating to the need for additional funds to service our debt and to execute our business strategy; our ability from time to time to renew one or more of our broadcast licenses; changes in interest rates; changes in the fair value of our investments; the timing of, and our ability to complete, any acquisitions or dispositions pending from time to time; costs and synergies resulting from the integration of any completed acquisitions; our ability to effectively manage costs; our ability to effectively drive and manage growth; the popularity of radio as a broadcasting and advertising medium; changing consumer tastes; the impact of general economic conditions in the United States or in specific markets in which we currently do business; industry conditions, including existing competition and future competitive technologies and cancellation, disruptions or postponements of advertising schedules in response to national or world events; our ability to generate revenues from new sources, including local commerce and technology-based initiatives; the impact of regulatory rules or proceedings that may affect our business or any acquisitions; our ability to continue regain compliance with the listing standards for our Class A common stock to continue to be listed for trading on the NASDAQ stock market; the write-off of a material portion of the fair value of our FCC broadcast licenses and goodwill from time to time; or other risk factors described from time to time in our filings with the Securities and Exchange Commission, including our Form 10-K for the year ended December 31, 2016 (the “2016 Form 10-K”) and any subsequent filings. Many of these risks and uncertainties are beyond our control, and the unexpected occurrence or failure to occur of any such events or matters could significantly alter the actual results of our operations or financial condition.

Cumulus Media Inc. assumes no responsibility to update any forward-looking statement as a result of new information, future events or otherwise.

APPENDIX:

Financial Summary & Reconciliation to Non-GAAP Term
Non-GAAP Financial Measure

Definition of Adjusted EBITDA

Adjusted EBITDA is the financial metric utilized by management to analyze the cash flow generated by our business. This measure isolates the amount of income generated by our core operations before the incurrence of corporate expenses. Management also uses this measure to determine the contribution of our core operations to the funding of our corporate resources utilized to manage our operations and our non-operating expenses including debt service. In addition, Adjusted EBITDA is a key metric for purposes of calculating and determining our compliance with certain covenants contained in our credit facility. We define Adjusted EBITDA as net income (loss) before any non-operating expenses, including depreciation and amortization, stock-based compensation expense, gain or loss on sale of assets or stations (if any), gain or loss on derivative instruments (if any), impairment of assets (if any), acquisition-related and restructuring costs (if any) and franchise and state taxes. In deriving this measure, management excludes depreciation, amortization, and stock-based compensation expense, as these do not represent cash payments for activities directly related to our core operations. Management excludes any gain or loss on the exchange or sale of any assets or stations and any gain or loss on derivative instruments as they do not represent cash transactions nor are they associated with core operations. Expenses relating to acquisitions and restructuring costs are also excluded from the calculation of Adjusted EBITDA as they are not directly related to our core operations. Management excludes any non-cash costs associated with impairment of assets as they do not require a cash outlay. Management believes that Adjusted EBITDA, although not a measure that is calculated in accordance with GAAP, nevertheless is commonly employed by the investment community as a measure for determining the market value of media companies. Management has also observed that Adjusted EBITDA is routinely employed to evaluate and negotiate the potential purchase price for media companies and is a key metric for purposes of calculating and determining compliance with certain covenants in our credit facility. Given the relevance to our overall value, management believes that investors consider the metric to be extremely useful.

Adjusted EBITDA should not be considered in isolation or as a substitute for net income, operating income, cash flows from operating activities or any other measure for determining the Company's operating performance or liquidity that is calculated in accordance with GAAP. In addition, Adjusted EBITDA may be defined or calculated differently by other companies and comparability may be limited.
